# OpenNotes

OpenNotes is the international movement dedicated to making health care more open and transparent by urging doctors, nurses, therapists, and others to share their visit notes with patients. OpenNotes is a concept representing a culture change in medicine, not a product, service, or software.

# DC Area Dissemination

- 92 implementers in 47 states
- 18 million patients registered on portals with access to notes
- The VA is the only implementer in D.C.
- Virginia — VA and Virginia Commonwealth
- Maryland — VA and WellSpan
- Delaware — VA and Nemours Children's
- Likely more, but we don't have confirming data
